

# MRT

## Open House

May 22, 2010 9am – 3pm

### 2005-2009 Mustang KR Muffler-Delete Kit

MRT's own muffler-delete axle-back exhaust system couples performance gains with an

intense, attention-getting muscle-car roar. Features chrome tips, the finest 304-grade stainless steel construction, and direct bolt-in installation. Consider the *2005-2011 Mustang H-Pipe* to further enhance your Mustang's performance and fine-tune its sound into that deep exhaust rumble we all know and love.

### 1994-2011 Mustang Rear Window Louver

complements the natural lines of your vehicle and evokes classic, all-American

power. Features satin black powdercoat finish, excellent rear window visibility, lightweight aluminum design, and easy cleaning.

### 1999-2011 Mustang Carbon Fiber Hood Struts

exude an aura of refinement fitting of a top-caliber performance vehicle.

Their understated class lets the competition know that you mean business. MRT Hood Struts eliminate the factory prop rod to give the engine compartment a clean, pleasing appearance. No drilling required to install.

### Turbochargers

brought to you by MRT and Turbonetics offer virtually unlimited power options for a variety of models. MRT Performance specializes in

**TURBONETICS**

installation and fabrication of power-adding systems tailored to your performance needs.
