

3dCARBON™

Revised 11/11/2011

Since the 2010 Mustang 3dCarbon Boy Racer body kit was introduced there has been a lot of interest from consumers wanting to know if the Boy racer kit will fit the 2010-2012 Mustang V6 Models. The following explains what the two options are and what is required.

2010-2012 Mustang GT Models

The 3dCarbon Boy Racer Front Bumper will replace the front factory fascia on the GT model - the front factory grille that has the GT Fog Lights will attach directly to the 3dCarbon Bumper with no changes or provisions required. The optional 3dCarbon E Grille can be installed with the Boy Racer Front Bumper. All of the necessary hardware and installation instructions are supplied. The original OE Fog Lights will attach directly to the 3dCarbon E Grille.

2010-2012 Mustang V6 Models

The 3dCarbon Boy Racer Front Bumper will replace the front factory fascia on the V6 model. The front factory grille between the headlights will NOT fit the 3dCarbon Boy Racer front bumper. In order to install the 3d Boy Racer front the options are as follows.

Option A)

Purchase the 3dCarbon E Grille this part will attach directly to the 3d Boy Racer front Bumper - there are no fog lights supplied with the 3d E Grille so the other items required are as follows:

3dCarbon - PN 691619 2010-2012 E Grille MSRP- **\$246.00**

Ford 2010-2012 Mustang Fog Lights Right & Left

Ford PN. AR3Z-15200-B – MSRP **\$113.93**

Ford PN. AR3Z-15200-B – MSRP **\$108.35**

Ford 2010-2012 Mustang Fog light Bulbs - these will need to be wired 12V into the vehicle with a switch by a 12 Volt shop. The wire plugs that connect to the bulbs are not serviced / sold separately by Ford since they are part of the wire harness on the Mustang GT Models. We have been told that a 12V shop can typically make a connector that will work.

Ford 2010-2012 Mustang Fog Light Bulbs

PN. XL3Z-13466-AA - MSRP **\$20.00** Each (2) Required

Option B)

Purchase the Ford Factory GT Grille - this part will attach directly to the 3d Boy Racer front Bumper. The items required are :

Ford 2010-2012 Mustang Fog Lights Right & Left

Ford PN. AR3Z-15200-B – MSRP **\$113.93**

Ford PN. AR3Z-15200-B – MSRP **\$108.35**

Ford 2010-2012 Mustang Fog light Bulbs - these will need to be wired 12V into the vehicle with a switch by a 12 Volt shop. The wire plugs that connect to the bulbs are not serviced / sold separately by Ford since they are part of the wire harness on the Mustang GT Models. We have been told that a 12V shop can typically make a connector that will work.

Ford 2010-2012 Mustang Fog Light Bulbs

PN. XL3Z-13466-AA - MSRP **\$20.00** Each (2) Required

Ford 2010-2012 Mustang Grille Surround Bezel

Ford PN. AR3Z-8419-AA – MSRP **\$127.50**

Ford 2010-2012 Mustang Pony Emblem

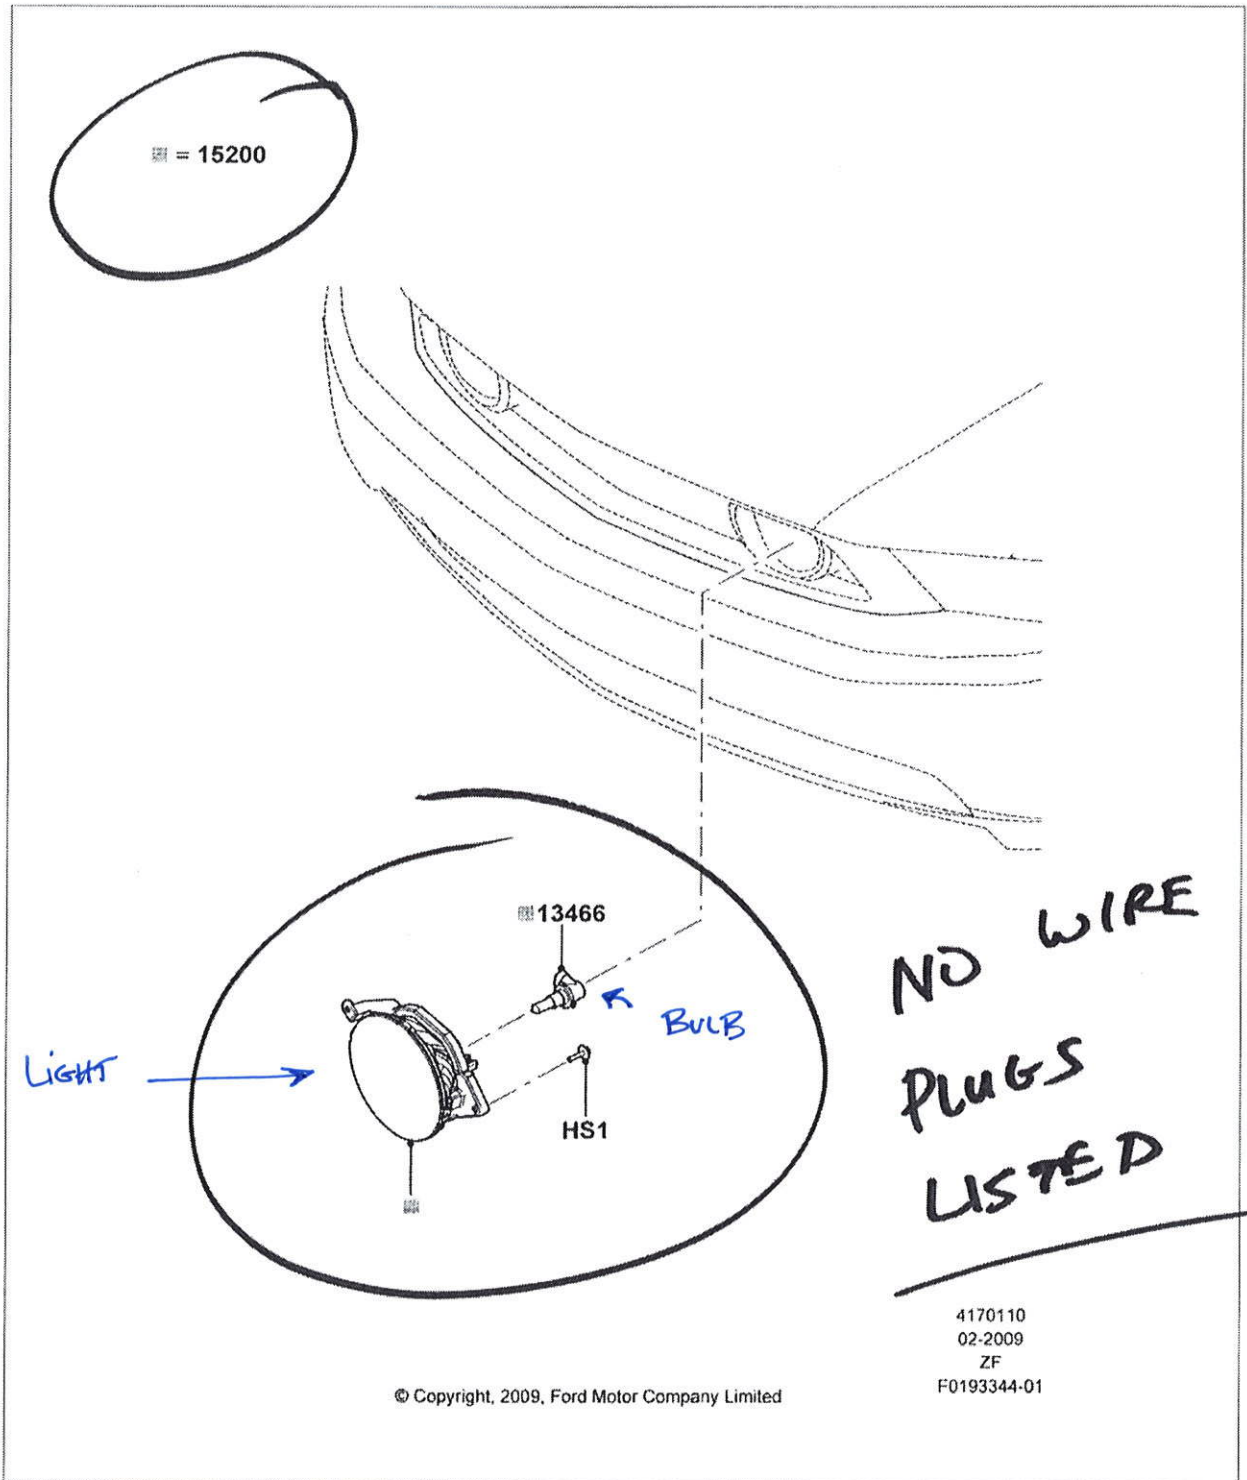

Ford PN. AR3Z-8A224-BA – MSRP **\$59.30**
